COMMERCIAL
150kg**

LAD-M402-XT

LAD-M403-XT

LAD-M403D-XT

Features

Eight different usage positions to reach different usage height.

Two stabilizer bars make the ladder firm.

With steel platform, people can stand on the ladder in bridge type. There is connection between the two platforms. So the platform won't move when people move on the platform.

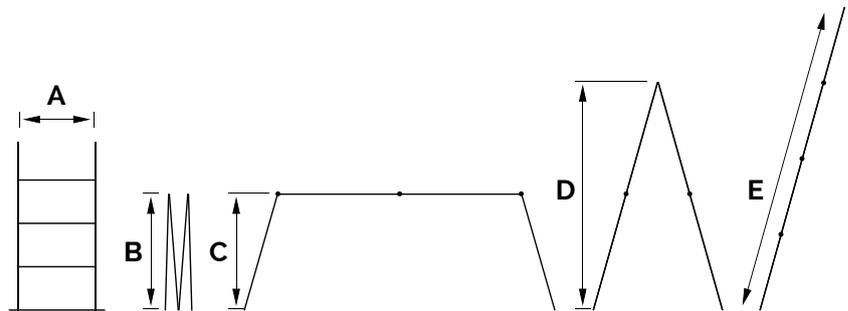

Light weight, strong & durable.

Non-slip aluminium treads.

Easily transported (fits into car boots).
